To Whom It May Concern:

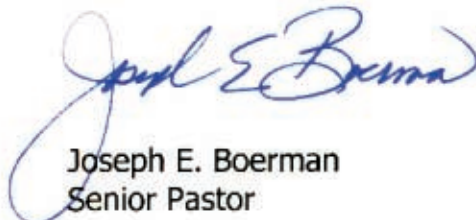

What a privilege it has been to work together with Ken Stock and the Heartland Group in the planning and construction process for our new church building. We took very seriously the selection of an architectural firm, interviewing several before making our final decision. We made the right choice.

Our congregation is now in our I Phase building and are amazed at how the actual finished product perfectly meets each of the needs we talked about up front.

From the beginning, we have felt that the Heartland Group took a personal interest in us and our project. They listened well and responded to our needs.

We are looking forward to working with them throughout all the phases of our new construction.

Sincerely,

Joseph E. Boerman
Senior Pastor
