To Whom It May Concern:

If you are shopping for an architect, I would highly recommend to you that you hire Ken Stock of the Heartland Group.

Our association with Ken began in December of 1995 when we selected Oliver Construction as our design/build contractor for a 90,000 sq. ft. addition that would house both warehouse and office space. We chose Oliver primarily due to the innovative ideas they offered us – they talked to our people and proposed a building solution that would best fit our needs based on what they heard from us. Ken was the architect with Oliver at that time, and he brought a wealth of ideas and knowledge to the table.

Over the course of our building project (from December 1995 through June 1997), I had the opportunity to work closely with Ken. The knowledge, creativity, and quality of design that Ken contributed to the project continually impressed me. Ken has a high standard for customer service and proved to be very flexible. He made himself accessible, and was very responsive to questions and requested changes.

In short, our experience with Ken Stock was very positive. I can recommend him as an architect with no hesitation whatsoever.

Sincerely,
